Dear Muckrock:

In response to your record request received by the Nevada Department of Corrections (NDOC) office October 30, 2018 in which you request the following:

- Any informational and educational materials distributed in correctional facilities about housing options available to inmates post-release. – **Attached are the housing references we make available to inmates as they leave our custody. The Statewide Resource Manual, Nevada Job Connect Resource Guide and there is a copy of the cover of other resources that are placed in the release packets for the inmates that are releasing.**
- Any currently valid policies/procedures detailing department re-entry services specific to accessing housing options post-release. **We don't work with inmates once they leave our custody. They are connected to services within the community in which they are released.**
- Any statistical reports detailing admission and release trends from between January 1, 2017 and December 31, 2017. **We provide the DOJ this data so you can get it from their website or from our website www.doc.nv.gov . Look to the bottom of the first page and click "Statistics" and "Quarterly Statistical Summary".**
- Any statistical reports detailing recidivism data from between January 1, 2017 and December 31, 2017. **Same as above – click "Statistics" then "Recidivism analysis" then you will see 2014 as the most recent. Remember recidivism takes a few years to collect the data – inmates must be out of custody for a few years before we know if they reoffended... this is the most recent information we can provide.**
- Any statistical reports regarding inmate's housing status prior to and following commitment to the Department from between January 1, 2017 and December 31, 2017. **NDOC has no access to records of where people lived before they came to us however I've been told the information on the DOJ website has some of this data. When it comes to their movement inside our prison system, each inmate moves throughout the institutions and facilities on an individual basis dictated by their classification levels and individual needs. There is no report or record which documents all 14,000 inmate moves for the year. The moves are documented in the inmate's files.**

Sincerely,

A handwritten signature in dark ink, appearing to read "Santana", written over a horizontal line.
